

The Montreal Science Fiction and Fantasy Association (MonSFFA) Invites Its Members and Friends to Our...

CLUB EVENTS IN JULY!

Mark these **SUNDAYS** in your calendars, folks! MonSFFA's **Summer BBQ 2024** is scheduled for **Sunday, July 14**, with an online "e-Picnic" to follow two weeks later, on **Sunday, July 28!**

SUMMER BBQ

MonSFFen and their families, as well as friends of the club, are invited to gather at about 10:00AM in Parc Maisonneuve on Sunday, July 14, for the club's 2024 Summer BBQ

Parc Maisonneuve, easily accessible by Metro or bus, is located in the city's East End, adjacent the Botanical Gardens and the Olympic Stadium. Parking is available on site, or on nearby streets.

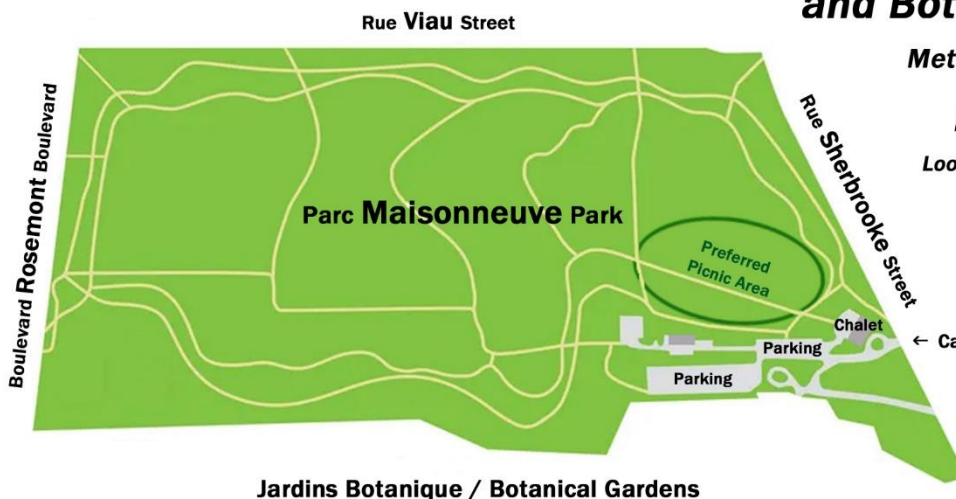

Our intention is to claim a picnic spot somewhere along one of the park's lines of trees, not too far from the parking lot and the chalet; our "Preferred Picnic Area" is indicated on the map (below). Look for us in roughly that area.

So join MonSFFA for a relaxing day in the park! Friends, fun, food, and fire, the latter provided by the club's new propane barbecue, which we'll have on site for those who may wish to grill up a couple of burgers, sausages, and such! Bring your own refreshments, snacks, and any meats you may wish to barbecue. Note that proper washroom facilities are located a short stroll away in the park's chalet.

An Afternoon with Friends Online
PLUS: Special Interest Group (Art) Meeting

In addition to enjoying, with friends online, an afternoon of casual conversation on any and all topics SF/F and fannish, we’ll have opportunity to view an album of **photographs** snapped by those MonSFFen who took part in our **Field Trip to the Montreal Biodome** last month.

Plus, we’ll invite folk to “show-and-tell” about any cool **sci-fi destinations or events** they’ve enjoyed on vacation during this first half of summer—*share your experiences, and any photos, with the group!*

And, we’ll take the opportunity to hold our *first* meeting of the club’s **Special Interest Group for Art**. Host Keith Braithwaite will give a talk/workshop on “How to Create Sci-Fi Art Without Knowing How to Draw!”
